New York, New York • 929.409.3727 • suji.falcon@gmail.com • [LinkedIn](#) • [Portfolio](#)

SKILLS

Javascript, React, Svelte, Typescript, HTML, CSS, Python, C++, Ruby, MongoDB, PostgreSQL, SQLite, Django, Node, Express, Next, Vue, Flask

PROJECTS

Legendary Slayers – React Web Application: [Deployed](#) | [Repo](#)

- **Utilized:** React, CSS, MongoDB, Express, Node, League of Legends API
- Full-CRUD reimagination of the League of Legends website. Users are able to save their favorite champions and items to their personal profile page.
- Utilized React and the League of Legends API to create dynamic profile pages for each champion that showcase their available skins using a sleek, interactive slideshow.

\$hills – React Web Application: [Deployed](#) | [Repo](#)

- **Utilized:** React, CSS, Django, Python, Twitter API
- Full-CRUD Social Media clone inspired by Twitter with a fun 'financial' twist for those who want to share their goals, give advice, and discuss trends.
- Leveraged React and CSS to implement a responsive design for the site, ensuring seamless and intuitive user experience across a wide range of devices and screen sizes.
- Developed a real-time, dynamic feed that automatically updates as new content is posted, providing users with the most up-to-date information.

PROFESSIONAL EXPERIENCE

General Assembly

JANUARY 2023 – PRESENT

Teaching Assistant

- Assisting instructors with the preparation and delivery of lessons, including creating and grading assignments, preparing materials, and leading group discussions.
